

Hey Trader,

Before you go and start using your newly downloaded MT4 Indicator, please take time to practice it on your DEMO account.

No real money for now, ok?

Our Broker is giving away USD30 for just opening an account with them and you can use this USD30 for trading with your new strategy. This is truly a RISK FREE trading.

It's not your USD30. But if you can double it or quadruple it, you can withdraw. So please take good advantage of this no brainer offer.

Here's the link to claim your USD30 from this broker. It's a legit offer as they are trying to expand their customer database.
